

Technology & Engineering Career Roadmap

Thirty-three LinkedIn-sourced journeys across computer science, software and core engineering degrees

This document compiles the career journeys of 33 Technology and Engineering graduates sourced from LinkedIn, grouped by undergraduate degree across two departments: Technology and Computer Science, and Engineering (non Computer Science). For each profile the document captures the university path, first job after graduation, current role, certifications or focus areas, and a short narrative of how the career evolved from first job to current role. Consistent with the brief, every short form is written out in full.

Snapshot · all 33 by degree

#	Name	Degree	Status	Current role @ organisation
01	Anshul Agarwal	Bachelor of Computer Applications	Employed	Lead Data Scientist @ McKinsey & Company
02	Mansi Rana	Bachelor of Computer Applications	Employed	Service Design and Transition Manager @ Tata Consultancy Services
03	Name not provided	Bachelor of Computer Applications	Employed	Storage Engineer @ Wipro
04	Name not provided	Bachelor of Computer Applications	Employed	Lead Software Engineer @ Tata Consultancy Services
05	Divya Kolhe	Computer Science and Engineering	Employed	Associate Software Engineer @ Accenture
06	Ramanpreet Kaur	Computer Science and Engineering	Employed	Senior Android Developer @ Accenture
07	Aditya Malik	Computer Science and Engineering	Employed	Software Development Engineer 2 @ Amazon
08	Puja Badabandala	Computer Science (Artificial Intelligence and Machine Learning)	Employed	Quality Assurance Engineer @ Accenture
09	Shreya Sharma	Computer Science and Engineering (Cyber Security)	Employed	Security Engineer @ Deloitte
10	T Mahima Singh	Computer Science and Engineering (Cyber Security)	Employed	Technical Support Engineer @ Microsoft
11	Name not provided	Computer Science and Engineering (Cyber Security)	Employed	Cybersecurity Support Engineer @ Microsoft
12	Name not provided	Computer Science and Engineering (Cyber Security)	Employed	Cybersecurity Manager @ Deloitte
13	Sourav Roy Choudhury	Computer Science and Engineering (Data Science)	Employed	Lead Machine Learning Engineer @ State Street
14	Aatman Prajapati	Computer Science and Engineering (Internet of Things)	Early career	Graduate Researcher @ University of Washington Bothell
15	Jainam Gala	Mechanical Engineering	Employed	Technical Program Manager @ Tesla
16	Kishorre Annanth Vijayan	Mechanical Engineering	Employed	Mechanical Product Design Engineer @ Google
17	Purushottam Ray	Mechanical Engineering	Doctoral researcher	Doctor of Philosophy candidate @ Wichita State University

#	Name	Degree	Status	Current role @ organisation
18	Madhan Sanikommu	Electrical and Electronics Engineering	Employed	Graphics Processing Unit Performance Engineer @ Apple
19	Yash Garg	Electrical and Electronics Engineering	Employed	Software Development Engineer I @ Amazon
20	Kartik Srivastava	Electrical and Electronics Engineering	Employed	Software Development Engineer II @ Amazon
21	Mrinmoy Mandal	Electrical and Electronics Engineering	Employed	Engineering Lead @ Tata Consultancy Services
22	Shivarama Devarasetty	Electronics and Communication Engineering	Employed	Mechatronics Technical Lead Engineer @ Lam Research
23	Chebrolu Satya Naga Renu	Electronics and Communication Engineering	Early career	Engineer @ Tata Consultancy Services
24	Shalini Maruthiah	Electronics and Communication Engineering	Employed	Maintenance Engineer @ BASF
25	Priya Pandey	Electronics and Communication Engineering	Employed	Senior Design Engineer @ Microchip Technology
26	Vaidheeswaran Krishnaratnam	Automobile Engineering	Employed	Component Engineer @ Jaguar Land Rover
27	Praveen S Pillai	Automobile Engineering	Employed	Warranty Administrator @ Jaguar Land Rover
28	Ankith Sanjay Thampi	Automobile Engineering	Employed	Vehicle Hardware Validation Engineer @ Rivian
29	Anoop Shetty	Automobile Engineering	Employed	Senior Logistics Engineer @ McLaren Automotive
30	Bidheyak Subedi	Robotics and Mechatronics	Employed	Research Associate @ Technische Hochschule Ingolstadt
31	Vishnu Raveendran Nair	Robotics and Mechatronics	Employed	Proxy Team Lead @ Amazon
32	Bibin Babu	Robotics and Mechatronics	Employed	Mechatronics and Robotics Technician @ Amazon
33	Chaitanya Mehta	Robotics and Mechatronics	Early career	Graduate Researcher @ Georgia Institute of Technology

TECHNOLOGY AND COMPUTER SCIENCE

Bachelor of Computer Applications (Honours, with Research)

4 profiles

A three year applied computer science degree that here fans out into data science, enterprise software, storage engineering, and service management, often with a master's added on top.

01 Anshul Agarwal

EMPLOYED

Lead Data Scientist · McKinsey & Company · Gurugram, India

Education	Bachelor of Computer Applications, Computer Science, Christ University, Bangalore (2016–2019) → Master of Business Administration, Indian Institute of Technology Madras (2021–2023)
First job	Transformation Change Analyst, Shell (2019–2021)
Current role	Lead Data Scientist, McKinsey & Company (May 2025–present); previously Data Scientist (Sep 2023–May 2025)
LinkedIn	Profile information as provided; not independently web-verified

Data Science

Analytics

Management Consulting

The journey

Anshul began with a Bachelor of Computer Applications at Christ University and a transformation analytics role at Shell, then added a Master of Business Administration at Indian Institute of Technology Madras and an analytics internship at McKinsey and Company. He joined McKinsey full time as a Data Scientist and has since risen to Lead Data Scientist, pairing a computer applications base with a consulting and analytics career.

02 Mansi Rana

EMPLOYED

Service Design and Transition Manager · Tata Consultancy Services · Royal Leamington Spa, United Kingdom

Education	Bachelor of Computer Applications, Computer Science, Vivekananda Institute of Professional Studies (2017–2020) → Master of Computer Applications, Indira Gandhi National Open University (2021–2023)
First job	System Administrator, Tata Consultancy Services (Jan 2021–Jul 2023)
Current role	Service Design and Transition Manager, Tata Consultancy Services (May 2026–present)
LinkedIn	Profile information as provided; not independently web-verified

Service Management

Systems Administration

The journey

Mansi paired a Bachelor of Computer Applications with a Master of Computer Applications and joined Tata Consultancy Services as a System Administrator. She progressed to Team Lead Manager and then to Service Design and Transition Manager, moving from India to a United Kingdom posting along the way.

03 Name not provided

EMPLOYED

Storage Engineer · Wipro · Bengaluru, India

Education	Bachelor of Computer Applications, Computer Programming, Jain (Deemed-to-be University) (2022–2025) → Master of Technology, Computing Systems and Infrastructure, Birla Institute of Technology and Science Pilani, Work Integrated Learning Programmes
First job	Web Developer (Intern), Prodigy InfoTech (Jun–Jul 2024)
Current role	Storage Engineer, Wipro (Oct 2025–present)
LinkedIn	Profile information as provided; not independently web-verified

Enterprise Storage

Cloud

Web Development

The journey

This profile arrived without a name. The path runs from a Bachelor of Computer Applications at Jain University, through web development internships and a Google Developer Student Clubs role, into a Scholar Trainee and then Storage Engineer position at Wipro, working on enterprise storage virtualisation, with a part time Master of Technology in progress.

04 Name not provided

EMPLOYED

Lead Software Engineer · Tata Consultancy Services · Edinburgh, United Kingdom

Education	Bachelor of Computer Applications, Computer Science, Shree Swaminarayan College of Computer Science → Master of Computer Applications, Computer Software Engineering, Ahmedabad University (2013–2015)
First job	Software Trainee, eProcurement Technologies (Dec 2014–May 2015)
Current role	Lead Software Engineer, Tata Consultancy Services (Apr 2024–present)
LinkedIn	Profile information as provided; not independently web-verified

Java and Spring

Microservices

Payment Systems

The journey

This profile arrived without a name. From a Bachelor of Computer Applications and a Master of Computer Applications, the career built through eProcurement Technologies as a Java and Spring developer, then Tata Consultancy Services, rising from Senior Software Engineer to Lead Java Developer and now Lead Software Engineer in the United Kingdom.

Bachelor of Technology, Computer Science and Engineering

3 profiles

The core four year computer science degree, here producing a general software track, a mobile application specialist, and a product engineer at a large technology company.

05 Divya Kolhe

EMPLOYED

Associate Software Engineer · Accenture · India

Education	Bachelor of Technology, Computer Science and Engineering, Dr. Babasaheb Ambedkar Technological University (Dec 2021–Jul 2024)
First job	Associate Software Engineer, Accenture
Current role	Associate Software Engineer, Accenture
LinkedIn	Profile information as provided; not independently web-verified

Software Engineering

The journey

Divya completed a Bachelor of Technology in Computer Science and Engineering and joined Accenture as an Associate Software Engineer, an early stage on a general software engineering track.

06 Ramanpreet Kaur

EMPLOYED

Senior Android Developer · Accenture · Canada

Education	Bachelor of Technology, Computational Science, Punjabi University (2012–2016) → Post Graduate Diploma, Mobile Application Development, Cégep de la Gaspésie et des Îles (2018–2019)
First job	Android Application Developer, Dakia Canada
Current role	Senior Android Developer, Accenture
LinkedIn	Profile information as provided; not independently web-verified

Android

Mobile Applications

The journey

Ramanpreet moved from a Bachelor of Technology in Computational Science into a Post Graduate Diploma in Mobile Application Development in Canada. She built a mobile specialisation across Dakia Canada, Stay Inc., and Bell, and is now a Senior Android Developer at Accenture.

07 Aditya Malik

EMPLOYED

Software Development Engineer 2 · Amazon · United States

Education	Bachelor of Technology, Computer Science, Jaypee Institute of Information Technology → Master of Science, Computer Science, Boston University
First job	Software Developer, Tata Consultancy Services
Current role	Software Development Engineer 2, Amazon
LinkedIn	Profile information as provided; not independently web-verified

Software Development

Distributed Systems

The journey

Aditya paired a Bachelor of Technology in Computer Science with a Master of Science in Computer Science at Boston University. He progressed from Software Developer at Tata Consultancy Services and internships at Office Depot to Software Development Engineer, and is now a Software Development Engineer 2 at Amazon.

Bachelor of Technology, Computer Science (Artificial Intelligence and Machine Learning)

1 profile

A computer science degree carrying an Artificial Intelligence and Machine Learning specialisation, landing in enterprise quality assurance with generative artificial intelligence certifications.

08 Puja Badabandala

EMPLOYED

Quality Assurance Engineer (Packaged App Development Associate) · Accenture · Hyderabad, India

Education	Bachelor of Technology, Computer Science (Artificial Intelligence and Machine Learning), CMR College of Engineering and Technology (Nov 2020–Apr 2024)
First job	Packaged App Development Associate, Accenture (Nov 2024–present)
Current role	Quality Assurance Engineer, Accenture (Nov 2024–present)
LinkedIn	Profile information as provided; not independently web-verified

Google Generative Artificial Intelligence Certified

GitHub Copilot Certified

Machine Learning

Natural Language Processing

The journey

Puja completed a Bachelor of Technology in Computer Science with an Artificial Intelligence and Machine Learning specialisation and joined Accenture, where she works in quality assurance across enterprise applications using structured query language validation and Selenium automation, backed by Google Generative Artificial Intelligence and GitHub Copilot certifications.

Bachelor of Technology, Computer Science and Engineering (Cyber Security)

4 profiles

Security careers reached from several starting points, computer engineering, forensic investigation, and computer science, converging on privileged access, cloud, and enterprise security roles at Deloitte and Microsoft.

09 Shreya Sharma

EMPLOYED

Security Engineer · Deloitte · India

Education	Bachelor of Technology, Computer Engineering, SRM Institute of Science and Technology (Jul 2021–Aug 2025)
First job	Information Technology Intern, Cummins India
Current role	Security Engineer, Deloitte
LinkedIn	Profile information as provided; not independently web-verified

CyberArk Defender & Privileged Access Management

Security Engineering

Identity Security

The journey

Shreya completed a Bachelor of Technology in Computer Engineering at SRM Institute of Science and Technology, with an early information technology internship at Cummins India. She moved into security as a Security Engineer at Deloitte and earned the CyberArk Defender credential in Privileged Access Management, building a focused identity and access security profile.

10 T Mahima Singh

EMPLOYED

Technical Support Engineer · Microsoft · India

Education	Bachelor's degree, Computer Science – Cyber Security, Amrita Vishwa Vidyapeetham
First job	Research Intern, Department of Artificial Intelligence, Indian Institute of Technology Hyderabad (2023)
Current role	Technical Support Engineer, Microsoft
LinkedIn	Profile information as provided; not independently web-verified

Cyber Security

Windows Support

Product Development

The journey

Mahima studied Computer Science with a Cyber Security specialisation at Amrita Vishwa Vidyapeetham and interned in the Department of Artificial Intelligence at Indian Institute of Technology Hyderabad. After an associate engineer role in product development, she became a Technical Support Engineer at Microsoft.

11 Name not provided

EMPLOYED

Cybersecurity Support Engineer · Microsoft · Canada

Education	Bachelor of Technology, Forensic Investigation (Digital Forensics and Cybersecurity), British Columbia Institute of Technology; Advanced Diploma, Computer System Technology, St. Clair College
First job	Technical Support Specialist, Avigilon (2017–2019)
Current role	Cybersecurity Support Engineer, Microsoft
LinkedIn	Profile information as provided; not independently web-verified

Digital Forensics

Information Security

Systems Administration

The journey

This profile arrived without a name. From a Bachelor of Technology in Forensic Investigation covering digital forensics and cybersecurity, the career ran through technical support at Avigilon and Change Healthcare, systems and information technology roles at Simon Fraser University, an Information Security Analyst position at Fraser Health Authority, and now a Cybersecurity Support Engineer role at Microsoft in Canada.

12 Name not provided

EMPLOYED

Cybersecurity Manager · Deloitte · Dallas, United States

Education	Master of Science, Cybersecurity, Naveen Jindal School of Management, University of Texas at Dallas (2017–2019); bachelor's degree not listed on profile
First job	Senior System Engineer, Infosys (2013–2015)
Current role	Cybersecurity Manager, Deloitte (Jun 2025–present)
LinkedIn	Profile information as provided; not independently web-verified

Risk Management

Cloud Security

Security Consulting

The journey

This profile arrived without a name and lists only a master's degree. A Master of Science in Cybersecurity at the University of Texas at Dallas followed early software roles at Infosys and Novartis. A Security Architect role at Global Payments led into Deloitte, where the career rose from Cybersecurity Consultant to Senior Consultant and now Cybersecurity Manager.

Bachelor of Technology, Computer Science and Engineering (Data Science)

1 profile

A computer science degree bridged into statistics and large scale data, ending in a machine learning leadership role in financial services.

13 Sourav Roy Choudhury

EMPLOYED

Lead Machine Learning Engineer · State Street · Texas, United States

Education	Bachelor of Technology, Computer Engineering, West Bengal University of Technology → Master of Science, Computer Science, University of North Carolina at Charlotte
First job	Industry Project Computer Vision Engineer, Lowe's Companies
Current role	Lead Machine Learning Engineer (Artificial Intelligence and Machine Learning), State Street (Mar 2026–present)
LinkedIn	Profile information as provided; not independently web-verified

Machine Learning

Computer Vision

Data Science

The journey

Sourav paired a Bachelor of Technology in Computer Engineering with a Master of Science in Computer Science at the University of North Carolina at Charlotte. He built a data and machine learning track through Forcura and Tiger Analytics, then joined State Street, rising from Senior to Lead Machine Learning Engineer on the automation and innovation team.

Bachelor of Technology, Computer Science and Engineering (Internet of Things)

1 profile

Hardware meets software: a computer science degree with an Internet of Things minor, taken toward distributed systems and connected device research.

14 Aatman Prajapati

EARLY CAREER

Graduate Researcher, Distributed Systems Laboratory · University of Washington Bothell · United States

Education	Bachelor of Technology, Computer Science Engineering (Minor: Internet of Things), Vellore Institute of Technology (2019–2023) → Master of Science, Computer Science, University of Washington Bothell (2023–2025)
First job	Research Intern, Samsung Research and Development Institute India (2022)
Current role	Graduate Researcher, Distributed Systems Laboratory, University of Washington Bothell (2024–2025)
LinkedIn	Profile information as provided; not independently web-verified

Distributed Systems

Internet of Things

Natural Language Processing

The journey

Aatman completed a Bachelor of Technology in Computer Science Engineering with an Internet of Things minor at Vellore Institute of Technology, then a Master of Science in Computer Science at the University of Washington Bothell. His work spans a security internship at Samsung Research and Development, an Industrial Internet of Things pilot using video analytics, and graduate research on distributed graph databases.

ENGINEERING (NON COMPUTER SCIENCE)

Bachelor of Technology , Mechanical Engineering

3 profiles

The broadest launchpad in the batch: mechanical engineering here reaches manufacturing and program management at Tesla, hardware product design at Google, and doctoral research.

15 Jainam Gala

EMPLOYED

Technical Program Manager, New Product Introduction · Tesla · United States

Education	Bachelor of Technology, Mechanical Engineering, National Institute of Technology Karnataka (2013–2017) → Master of Science, Industrial Engineering, Purdue University (2022–2024)
First job	Graduate Research Assistant, Purdue University Daniels School of Business
Current role	Technical Program Manager, New Product Introduction, Tesla
LinkedIn	Profile information as provided; not independently web-verified

- Manufacturing
- New Product Introduction
- Program Management

The journey

Jainam paired a Bachelor of Technology in Mechanical Engineering with a Master of Science in Industrial Engineering at Purdue University. He moved from Senior Manufacturing Engineer at ZF Group into Tesla as a Manufacturing Process Engineer, and now works as a Technical Program Manager for New Product Introduction.

16 Kishorre Annanth Vijayan

FEATURED · EMPLOYED

Mechanical Product Design Engineer · Google · Sunnyvale, California, United States

2	2	4	7
Universities attended	Countries (India, United States)	Employers	Years, degree start to Google
Education	Bachelor of Technology, Mechanical Engineering, Vellore Institute of Technology (2018–2022) → Master of Science, Mechanical Engineering, Texas A&M University (2022–2024)		
First job	Mechanical Engineer (Intern), SmithGroup		
Current role	Mechanical Product Design Engineer, Google (Oct 2025–present)		
LinkedIn	Profile information as provided; not independently web-verified		

- Computer Aided Design
- Finite Element Analysis
- Thermal Design

The journey

Kishorre paired a Bachelor of Technology in Mechanical Engineering at Vellore Institute of Technology with a Master of Science at Texas A&M University. Internships at SmithGroup and Tesla led to a Hardware Thermal Quality Assurance Engineer role at Cisco, and then to Google, where he designs mechanical components and cooling systems for hyperscale data center platforms.

17 Purushottam Ray

DOCTORAL RESEARCHER

Doctor of Philosophy candidate, Engineering and Industrial Management · Wichita State University · United States

Education	Bachelor of Technology, Mechanical Engineering, Maulana Azad National Institute of Technology (2016–2020) → Master of Technology, Mechanical Design, Indian Institute of Technology Madras (2023–2025) → Doctor of Philosophy, Engineering and Industrial Management, Wichita State University (2025–present)
First job	Intern, Bharat Heavy Electricals Limited
Current role	Doctor of Philosophy candidate, Wichita State University (Aug 2025–present)
LinkedIn	Profile information as provided; not independently web-verified

Mechanical Design

Industrial Management

Automotive Service

The journey

Purushottam moved from a Bachelor of Technology in Mechanical Engineering into automotive service and management roles, then a Master of Technology in Mechanical Design at Indian Institute of Technology Madras, and is now pursuing a Doctor of Philosophy in Engineering and Industrial Management at Wichita State University.

Bachelor of Technology, Electrical and Electronics Engineering

4 profiles

A versatile foundation that here bends firmly toward software and silicon: performance engineering at Apple, software development at Amazon, and enterprise engineering leadership.

18 Madhan Sanikommu

EMPLOYED

Graphics Processing Unit Performance Engineer · Apple · United States

Education	Bachelor of Technology, Electrical Engineering, Indian Institute of Technology Madras → Master of Science, University of Texas at Austin
First job	Machine Learning Intern, Blue Barrel Solutions
Current role	Graphics Processing Unit Performance Engineer, Apple
LinkedIn	Profile information as provided; not independently web-verified

Graphics Processing Unit

Performance Modelling

Machine Learning

The journey

Madhan studied Electrical Engineering at Indian Institute of Technology Madras and completed a Master of Science at the University of Texas at Austin, alongside leadership of outreach teams at the Saarang festival. After internships at Microsoft and Qualcomm, he became a Graphics Processing Unit Performance Engineer at Apple.

19 Yash Garg

EMPLOYED

Software Development Engineer I · Amazon · India

Education	Bachelor's degree, Electrical and Electronics Engineering, Birla Institute of Technology and Science Pilani, Hyderabad Campus (2022–2026)
First job	Technical Intern, Electrono Solutions (2024)
Current role	Software Development Engineer I, Amazon (Jul 2026–present)
LinkedIn	Profile information as provided; not independently web-verified

Software Development

Research

The journey

Yash studied Electrical and Electronics Engineering at Birla Institute of Technology and Science Pilani, Hyderabad. Internships at Tech Mahindra and Amazon converted into a full time Software Development Engineer role at Amazon.

20 Kartik Srivastava

EMPLOYED

Software Development Engineer II · Amazon · United States

Education	Bachelor of Technology, Electrical and Electronics Engineering, Galgotias College of Engineering and Technology (2010–2014) → Master of Science, Embedded Systems, University of Pennsylvania (2018–2020)
First job	Research and Development Engineer, Broadcom (2014–2018)
Current role	Software Development Engineer II, Amazon (Jul 2020–present)
LinkedIn	Profile information as provided; not independently web-verified

Embedded Systems

Computer Architecture

Wireless Communication

The journey

Kartik moved from a Bachelor of Technology in Electrical and Electronics Engineering and research and development at Broadcom into a Master of Science in Embedded Systems at the University of Pennsylvania. He is now a Software Development Engineer II at Amazon.

21 Mrinmoy Mandal

EMPLOYED

Engineering Lead · Tata Consultancy Services · London, United Kingdom

Education	Bachelor of Technology, Electrical, Electronics and Communications Engineering, West Bengal University of Technology (2007–2011) → Professional Certificate, Artificial Intelligence, Imperial College London (2025–2026)
First job	Programmer Analyst, Cognizant (2011–2014)
Current role	Engineering Lead, Tata Consultancy Services (Jun 2021–present)
LinkedIn	Profile information as provided; not independently web-verified

Order Management Systems

Cloud and Kubernetes

Enterprise Architecture

The journey

Mrinmoy studied Electrical, Electronics and Communications Engineering and spent nearly a decade at Cognizant, leading order management system migrations for United Kingdom and United States retailers. He is now an Engineering Lead at Tata Consultancy Services, working on returns platforms and artificial intelligence powered operations tooling for a major retailer.

Bachelor of Technology, Electronics and Communication Engineering

4 profiles

Signal, silicon, and systems: this degree here spans perception software for vehicles, chip design, embedded systems, and industrial maintenance engineering.

22 Shivarama Devarasetty

EMPLOYED

Mechatronics Technical Lead Engineer · Lam Research · India

Education	Bachelor of Technology, Electrical, Electronics and Communications Engineering, NIIT University (2015–2019)
First job	Project Intern, VirGo Innovations
Current role	Mechatronics Technical Lead Engineer, Lam Research
LinkedIn	Profile information as provided; not independently web-verified

Advanced Driver Assistance Systems

Perception Software

Computer Vision

The journey

Shivarama studied Electrical, Electronics and Communications Engineering at NIIT University and specialised in perception and autonomy. He moved through Embedded Vision Engineer at Flux Auto, Advanced Driver Assistance Systems development at Harman, Senior Perception Software Engineer at Mercedes-Benz Research and Development India, and is now a Mechatronics Technical Lead Engineer at Lam Research.

23 Chebrolu Satya Naga Renu

EARLY CAREER

Engineer · Tata Consultancy Services · Hyderabad, India

Education	Bachelor of Technology, Electrical, Electronics and Communications Engineering, Vellore Institute of Technology (2022–2026)
First job	Embedded System Intern, Defence Research and Development Organisation (2024)
Current role	Engineer, Tata Consultancy Services (Jun 2026–present)
LinkedIn	Profile information as provided; not independently web-verified

Embedded Systems

Embedded Software

The journey

Renu studied Electrical, Electronics and Communications Engineering at Vellore Institute of Technology, with an embedded systems internship at the Defence Research and Development Organisation. She moved into an embedded software engineering internship and then a full time Engineer role at Tata Consultancy Services.

24 Shalini Maruthiah

EMPLOYED

Maintenance Engineer · BASF Environmental Catalyst and Metal Solutions · India

Education	Bachelor of Technology, Electronics and Communications Engineering, Alliance University (2019–2023)
First job	Project Intern, Ashok Leyland (2022)
Current role	Maintenance Engineer, BASF Environmental Catalyst and Metal Solutions (Jul 2023–present)
LinkedIn	Profile information as provided; not independently web-verified

Maintenance Engineering

Industrial Systems

The journey

Shalini studied Electronics and Communications Engineering at Alliance University, with an internship at Ashok Leyland. She moved into industry as a Maintenance Engineer at BASF Environmental Catalyst and Metal Solutions.

25 Priya Pandey

EMPLOYED

Senior Design Engineer · Microchip Technology · United States

Education	Bachelor of Technology, Electronics and Communications Engineering, Dr. A.P.J. Abdul Kalam Technical University (2010–2014) → Master of Technology, Very Large Scale Integration Design, Vellore Institute of Technology (2015–2017)
First job	Register Transfer Level Design Engineer, Numem
Current role	Senior Design Engineer, Microchip Technology (Oct 2023–present)
LinkedIn	Profile information as provided; not independently web-verified

Very Large Scale Integration Design

Register Transfer Level Design

The journey

Priya paired a Bachelor of Technology in Electronics and Communications Engineering with a Master of Technology in Very Large Scale Integration Design. She worked as a Register Transfer Level Design Engineer at Numem and is now a Senior Design Engineer at Microchip Technology, active in the Institute of Electrical and Electronics Engineers and the Society of Women Engineers.

Bachelor of Technology, Automobile Engineering

4 profiles

A fast evolving field in the electric vehicle transition, here spanning validation at Rivian, logistics at McLaren, and after sales and warranty engineering at Jaguar Land Rover.

26 Vaidheeswaran Krishnaratnam

EMPLOYED

Component Engineer · Jaguar Land Rover · United Kingdom

Education	Master's degree, Automotive Engineering Technology, Loughborough University (2021–2022); bachelor's degree not listed on profile
First job	Project Intern, UCAL Fuel Systems (2019)
Current role	Component Engineer, Jaguar Land Rover (Sep 2023–present)
LinkedIn	Profile information as provided; not independently web-verified

Bill of Materials

Component Engineering

The journey

Vaidheeswaran completed a master's degree in Automotive Engineering Technology at Loughborough University. Roles as a Bill of Materials Engineer at Bowler and Associate Engineer at Tata Elxsi led into a Component Engineer position at Jaguar Land Rover.

27 Praveen S Pillai

EMPLOYED

Warranty Administrator · Jaguar Land Rover · United Kingdom

Education	Bachelor of Technology, Automobile, Mahatma Gandhi University, Kerala (2012–2016)
First job	Automotive Service Advisor, Honda Motor India (Jul 2016–Mar 2018)
Current role	Warranty Administrator, Jaguar Land Rover (Aug 2024–present)
LinkedIn	Profile information as provided; not independently web-verified

After Sales

Warranty

Service

The journey

Praveen completed a Bachelor of Technology in Automobile at Mahatma Gandhi University and built an automotive after sales and warranty career, from Honda Motor India to Aston Martin dealerships in Dubai, and now Warranty Administrator at Jaguar Land Rover in the United Kingdom.

28 Ankith Sanjay Thampi

EMPLOYED

Vehicle Hardware Validation Engineer · Rivian · United States

Education	Bachelor of Technology, Mechanical Engineering, Christ University (2017–2021) → Master of Science, Automotive Systems Engineering, University of Michigan–Dearborn (2022–2023)
First job	Product Engineering Intern, Dometic (2023)
Current role	Vehicle Hardware Validation Engineer, Rivian (Sep 2025–present)
LinkedIn	Profile information as provided; not independently web-verified

Computer Aided Design

Structural Validation

Body in White

The journey

Ankith paired a Bachelor of Technology in Mechanical Engineering at Christ University with a Master of Science in Automotive Systems Engineering at the University of Michigan–Dearborn. Product and validation roles at Dometic and Stellantis led to a Vehicle Hardware Validation Engineer position at Rivian.

29 Anoop Shetty

EMPLOYED

Senior Logistics Engineer · McLaren Automotive · Woking, United Kingdom

Education	Bachelor's degree, Mechanical Engineering, Ramaiah Institute of Technology (2015–2019) → Master's degree, Automotive and Motorsport Engineering, Brunel University of London (2020–2021)
First job	Chassis Engineer and Fabrication Head, Stier Racing (2018–2019)
Current role	Senior Logistics Engineer, McLaren Automotive (Sep 2026–present)
LinkedIn	Profile information as provided; not independently web-verified

Motorsport

Chassis Design

Logistics Engineering

The journey

Anoop paired a Bachelor's in Mechanical Engineering with a Master's in Automotive and Motorsport Engineering at Brunel University of London. A motorsport path through Formula Student and racing roles led to McLaren Automotive, where he progressed from Production Team Member to New Model and now Senior Logistics Engineer.

Bachelor of Technology, Robotics and Mechatronics

4 profiles

Mechanical plus electronics plus artificial intelligence: three of these four reached robotics through a mechanical bachelor and a robotics master's, with high demand in deep technology.

30 Bidheyak Subedi

EMPLOYED

Research Associate · Technische Hochschule Ingolstadt · Germany

Education	Bachelor of Technology, Mechanical Engineering, Sri Venkateswara College of Engineering and Technology (2013–2017) → Master of Science, Mechatronics, Robotics, and Automation Engineering, Universität Siegen (2020–2023)
First job	Research Engineer, Hyundai Motor India Engineering (2017–2020)
Current role	Research Associate, Technische Hochschule Ingolstadt
LinkedIn	Profile information as provided; not independently web-verified

Mechatronics

Robotics

Automotive Light Weight Design

The journey

Bidheyak moved from a Bachelor of Technology in Mechanical Engineering and a research role at Hyundai into a Master of Science in Mechatronics, Robotics, and Automation Engineering at Universität Siegen. He combined a master's thesis at Aptiv with German research and development roles, and now works in mechatronics research at Technische Hochschule Ingolstadt.

31 Vishnu Raveendran Nair

EMPLOYED

Proxy Team Lead · Amazon · Leeds, United Kingdom

Education	Bachelor of Technology, Mechanical Engineering, Mohandas College of Engineering and Technology (2007–2011) → Master of Science, Mechatronics and Robotics, University of Leeds (2022–2023)
First job	Fulfilment Centre Associate, Amazon (2023–2024)
Current role	Proxy Team Lead, Amazon (Aug 2024–present)
LinkedIn	Profile information as provided; not independently web-verified

Human Robot Interaction

Lean Six Sigma

Operations

The journey

Vishnu paired a Bachelor of Technology in Mechanical Engineering with a Master of Science in Mechatronics and Robotics at the University of Leeds. He applied human robot interaction and Lean methods inside Amazon operations in the United Kingdom, working with semi automated robotic storage and retrieval systems, and rose from Fulfilment Centre Associate to Proxy Team Lead.

32 Bibin Babu

EMPLOYED

Mechatronics and Robotics Technician · Amazon · Canada

Education	Bachelor's degree, Mechanical Engineering, Mahatma Gandhi University (2012–2016) → Post Graduate Diploma, Mechatronics, Robotics, and Automation Engineering, Centennial College (2018–2020)
First job	Programmer Analyst, Cognizant
Current role	Mechatronics and Robotics Technician, Amazon
LinkedIn	Profile information as provided; not independently web-verified

Automation

Robotics Maintenance

The journey

Bibin paired a Bachelor's in Mechanical Engineering with a Post Graduate Diploma in Mechatronics, Robotics, and Automation Engineering at Centennial College. He worked across automation and robotics technician roles at Faurecia, Stargate Manufacturing, and Amazon.

33 Chaitanya Mehta

Graduate Researcher · Georgia Institute of Technology · Atlanta, United States

EARLY CAREER

Education	Bachelor of Technology, Mechanical Engineering, Indian Institute of Technology Indore (2016–2020) → Master of Science, Robotics, Georgia Institute of Technology (2022–2024)
First job	Graduate Researcher, Laboratory for Intelligent Decision and Autonomous Robots, Georgia Institute of Technology (2022–2024)
Current role	Graduate Researcher, Georgia Institute of Technology; Design Automation Engineer, TK Elevator
LinkedIn	Profile information as provided; not independently web-verified

Robotics

Robot Operating System

Trajectory Optimization

The journey

Chaitanya paired a Bachelor of Technology in Mechanical Engineering at Indian Institute of Technology Indore with a Master of Science in Robotics at Georgia Institute of Technology. His research covered visuo tactile sensing and humanoid manipulation, including a modular gripper integrated with the Digit humanoid robot using the Robot Operating System, alongside a design automation role at TK Elevator.

Observations across the profiles

- Mechanical engineering is the broadest launchpad. Six mechanical graduates in this batch moved into robotics, automotive validation, manufacturing program management, and even operations, showing the degree as a wide base rather than a fixed track.
- A master's abroad is the dominant bridge. Most profiles pair an Indian Bachelor of Technology with a master's in the United States, the United Kingdom, Germany, or Canada before their strongest roles.
- The Electrical, Electronics and Communications Engineering umbrella scatters widely. Graduates of the same broad degree here sit in perception software, chip design, embedded systems, and enterprise software, so the degree title alone does not fix the career.
- A few large employers recur across unrelated degrees. Amazon, Tesla, Microsoft, Google, and Jaguar Land Rover each appear more than once, across computer science, electrical, mechanical, and automobile paths.
- Cyber security is entered laterally. The four security profiles arrive from computer engineering, computer science, forensic investigation, and a standalone master's, rather than only through a named cyber security bachelor.

Methodology and caveats

All 33 profiles are drawn from LinkedIn information supplied directly to Secure Steps, rather than sourced and cross checked independently against public web results, so none have been separately verified.

Four profiles arrived without a name and are shown as name not provided: two under Bachelor of Computer Applications and two under the Cyber Security degree.

Two profiles did not list a bachelor's degree on the profile and were grouped by their master's and career: one Cyber Security profile and the Automobile Engineering profile of Vaidheeswaran Krishnaratnam.

Three catalog degrees have no profile yet and are omitted, awaiting sourcing: the pure Bachelor of Technology in Artificial Intelligence and Machine Learning, both Bachelor of Science data tracks, and Bachelor of Technology in Civil Engineering with Artificial Intelligence and Machine Learning applications.
